# **INFORMATION NOTE FOR PARTICIPANTS**

#### Introduction

On 20 October 2020, the second face-to-face meeting of the International Liaison Group on Methods for Risk Assessment of Chemicals in Food (ILMERAC) will take place in Brussels, Belgium, back to back to EFSA's International Workshop on the Risk Assessment of Multiple Chemical Substances in Food. This note provides practical information for the participants who will attend the ILMERAC meeting.

#### Background

ILMERAC was created in January 2018 to provide a platform of governmental and intergovernmental risk assessment agencies to exchange information on activities and to share experience in the area of development and implementation of methodologies, approaches and tools for risk assessment of chemicals in food. Exchanges were aimed at raising awareness about ongoing and planned activities and programmes on topics of common interest, to discuss priority areas for harmonisation and to identify gaps for future work. The participation of the FAO/WHO Secretariat to JECFA and JMPR and OECD as observers, and the involvement of ILMERAC members in research (multi-institutional) programmes very much helped to provide clarity on ongoing and planned activities and to define priorities for development and harmonisation of methods for risk assessment of chemicals in food.

Risk assessment experts from 19 governmental and 6 intergovernmental organisations, including the EC Scientific Committees, FAO, WHO, OECD and US EPA as observers, joined the liaison group. Conference calls were held every trimester to define the terms of reference, the planning of activities and to identify topics for discussion in the area of methods and approaches for chemical risk assessment. On 17 September 2018, the group came also together

in person back-to-back with the  $3^{\rm rd}$  EFSA Scientific Conference which took place in Parma from 18-21 September.

The participating organisations established a coordinating committee to oversee ILMERAC's overall activities and agreed to designate a technical secretariat, offered by one of the member organisations of ILMERAC on a rotating basis, to help with the administration of the group and its activities. EFSA offered to provide the Technical Secretariat to ILMERAC for the first term of 2018-2020.

At the 5<sup>th</sup> Conference Call in October 2019, the group discussed the opportunity of the International Workshop on the Risk Assessment of Chemical Mixtures to be organised by EFSA in October 2020 to have a second face-to-face meeting in Brussels back to back to the International Workshop.

#### **Dates and Venue**

The ILMERAC face-to-face meeting will be held in the Thon Hotel EU in Brussels. The meeting will start at 09:00 and will end at 17:00 on Tuesday 20 October 2020. If they wish, ILMERAC participants can attend the International Workshop on the Risk Assessment of Chemical Mixtures which will take place at the same location on Wednesday 21 and Thursday 22 October 2020.

## Audio and screen sharing for those unable to attend

For those unable to attend the meeting in person, EFSA will offer a connection through audio and screen sharing.

#### Language

English will be the official language of the meeting. No translation will be provided.

## **Registration and Identification Badges**

Registration will take place in front of the Meeting Room (location tbc) on Tuesday 20 October 2020 from 08:30h onwards.
